

It's the Number One Desire of People Everywhere...

How to Attract MORE MONEY Than You Ever Thought Possible Into Your Life – Starting Today!

Discover the Secret to Demolish the Barriers Holding You Back
and Open Yourself to an Endless Flow of Money

Dear Friend,

One year from now, your income could be 2.5 to 25 times what it is today...Or you could still be struggling and wondering why you can't seem to make more money.

The choice is yours.

So...

If you would like to eliminate your debt forever and increase your money stream to more than you ever thought possible, then here is how I did it with \$35,000 in credit card debt and no income, and why I think you can do it in your own current financial situation.

Let's get started. The first thing I want to tell you is...

You Spend Too Much Time Thinking and Worrying About Money

I know, it's difficult NOT to when you're faced with so many money problems.

"Sorry, we can't afford it."

Sound familiar?

But imagine what your life will be like when you don't have to worry about where the money will come from to pay the basic bills.

Imagine loosening the chokehold of your debt once and for all.

Better yet, imagine the end of your "money quarrels" with your spouse.

Just 10 short years ago, I didn't think there was a way out of my family's own money problems. Instead of seeking the life we really wanted, my husband and I were absolutely CONSUMED by the ideas that money was hard to come by. We thought that making money was extremely difficult and that there would never be enough for us.

Fortunately, we discovered the secret that has transformed our money "shortcomings" into a 7-figure business that I love with all my heart!

Before I share the secret with you, though, it's vital for you to understand that...

The “Old” Way of Thinking About Money is Poison to Your Wealth Goals

Did you ever hear these sayings when you were growing up?

“Money doesn't grow on trees”

“Rich people are not as spiritual”

“You have to work hard for money”

“You are not worth it”

“Money goes out faster than it comes in”

These teachings certainly taught us how to be frugal.

Sadly, though, they also taught us to be poor.

With all of these limiting thoughts still swimming around in our minds and forming our opinions about money, it's no wonder so many people have a tough time attracting more money into their lives!

Let me put it bluntly –

These old ways of thinking about money will only hold you back. Have you noticed that most people who harbor these thoughts about money are barely allowing enough money to flow into their lives? It's NOT a coincidence that debt and a lack of money can be easily found in their lives.

But don't despair, because...

Today's “Money” is VERY Different From Your Parents' Money

Bear with me on this thought, since it will begin to really open your mind to your true potential with money.

In years past, the United States had a financial policy called “The Gold Standard.” Simply put, this policy dictated that the government could only circulate a certain amount of money in relation to the country's total amount of gold reserves. If the gold was worth a billion dollars, then the government could only circulate a pre-determined amount of dollars worth of money.

As a result, the amount of money you could acquire was limited.

However, in 1971 our leaders took the country off the Gold Standard. Most people don't know – or care – how this can possibly affect them.

Those “in the know” quickly understood what this truly means – that for the first time in recorded history, there is NO LIMIT to how much money any one person, or our society as a whole, can earn!

What an amazing turn of events!

You and I are so incredibly blessed to live in a time where money has been UNLEASHED! We can create money to whatever number we desire. The government has taken away any and all limits.

With these changes in place...

Money is Now a Form of ENERGY

Look closely at the way we interact with money nowadays.

Most of our money transactions do not involve actual printed money in a physical form. Aside from a little ‘pocket money’ we keep on hand, almost all of our money is transferred to us and away from us virtually in the form of electrons.

We typically only see our “money” as numbers on a page or a computer screen!

In just a few short decades, money has been transformed from a printed piece of paper that represents a certain amount of value into an infinitely HUGE unseen energetic force that we exchange in our world.

And like everything else in our world, it has both its good and bad sides.

If you find yourself on the “I worry about debt and a lack of money” side of the scale, then increased debt and a lack of money can happen very fast with this new form of money.

However, if you are on the positive “I focus on prosperity and affluence with money” side of things, then the energy of money will flow to you more quickly than ever before!

Here’s the BEST NEWS –

Because money is energy, it responds to your own personal energy levels and vibrations.

When you align your thoughts and feelings about money with vibrations of abundance and wealth, then you will easily change your financial situation – faster than you ever thought possible!

It’s all due to the simple fact that...

Money Obeys You

Your thoughts and feelings are energy. You vibrate electromagnetic currents and send out a “signal” that the energy of money must respond to.

Whatever you believe and vibrate about money is what your experience will be.

Money is a neutral resource. It simply reacts to your energy and takes on your belief and vibrational energy to give you the exact experience you believe about it.

Where does your “money energy” come from?

Usually from generations of family members – either for good or bad. Just like other habits in your life, your feelings about money and your money energy was influenced by the family you grew up in.

Now that you know where your “limiting” money beliefs come from, you’re ready to move on to a higher plane of understanding...

Wealth Increases Your Ability to Make the World Better

Money is a necessary commodity in our lives. Everyone understands that in our economic culture we need money to take care of our basic needs.

- When you have less money, fewer choices are available to you
- But when you have MORE money, you have an ABUNDANCE of choices before you

So if you have a spiritual purpose in your life, your ability to help everyone around you INCREASES when you have more money at your disposal.

- ✓ The person who does not have enough money is consumed each day with thoughts and worry about where to get more money.
- ✓ The person with an abundance of money, on the other hand, can focus on whatever she wants. She is free to think about how to bless the world and share her gifts and talents with the world.

In short, when you don’t have enough money to free up your time and your mind, then it becomes a problem that is very likely getting in the way of living your spiritual purpose.

The way I see it, it’s time to make money a spiritual tool in your life.

Here’s what I mean...

We should honor money as a wonderful resource from God that is meant to bless your life and the lives of so many others. I feel certain that God would rather have a wealthy disciple than a poor one.

Don’t get me wrong, though. I know that God loves us no matter how much money we have or don’t have in the bank. That isn’t the point.

But when you have plentiful financial resources ready to use to do good, it just makes sense that it’s a noble quest. God takes us and does with us what He can with whatever we have to offer. Considering how much more can be accomplished when you have more money -- and how many more lives can be blessed -- I know that God is VERY willing to help us create prosperity with money.

In fact, I believe with all my heart that he will help you...

Attract As Much Money As You Like – With NO LIMITS

This is a powerful thought: Starting today your money worries can come to an end.

You have the power and ability within you RIGHT NOW to create as much money as you want. You just need to learn how to do it for yourself.

I can show you how to make it happen.

As I mentioned before, I know exactly the kinds of frustration, stress, and worry that you are probably going through in your life right now.

Using the same principles and techniques that I'll reveal to you, my husband and I have gone from \$35,000 in credit card debt and ZERO income to creating a robust 7-figure business in a very short period of time.

From the moment we began implementing this one simple process and mindset, our experience with money has blossomed. We have turned away from our lifestyle of scarcity and have opened our hearts and our arms to a wonderful world of abundance that I never dreamed we could achieve.

But I'm living proof that anyone can do it. You just need the right teacher to show you.

How much income can you open your life too? The only limit is your own capacity to attract it.

Consider this...

- One of the wealthiest billionaires on the Forbes list of the 400 richest Americans in 2006 attracts \$1 million dollars per HOUR.
- Two others on the list are making \$13 million a day.
- The current minimum wage in the United States is \$5.15 an hour.

Where are you on that spectrum?

I'm guessing you're somewhere between \$5.15 per hour and \$1 million per hour.

Probably closer to \$5.15, right?

But here's the exciting news -- the money ceiling has been raised so high because we are free to create the amount of money we really want.

You just need to discover for yourself how to reach higher.
